Winter

Family: Bignoniaceae
Origin: Brazil, Argentina
Climate Zone: USDA 8-11, Sunset 8, 9, 12-24
Mature Height: 15-20 feet
Mature Width: 15-20 feet
Plant Type: Evergreen
Growth Habit: Multi-branching woody vine
Growth Rate: Fast
Flower Color/Details: Light purple to lavender, showy streaks in throat, fragrant 3 inch trumpets
Flower Season: Heavy bloom time from late spring to fall
Bark: Smooth, tan
Fruit: Large prickly seed pods
Foliage: Shiny dark green leaves, tendrils
Use: Trained as vine for small to large spaces, woodland, groundcover, fences, banks
Floral: Foliage only; flowers don't last
Wildlife/Beneficials: Attracts butterflies, native bees, and hummingbirds
Deer Resistant: No
Fire Resistant: No
Medicinal Uses/Edible: Unknown
Adverse Factors: Poisonous seeds; remove and discard seed pods

Soil: Adaptable, tolerates heavy soils
Exposure: Full sun, part shade
Water Requirements: Moderate, drought tolerant
WUCOLS Water Needs: M M M M / M
Description: Evergreen vine with a tropical look, creates a curtain of bloom over a long blooming period, terminal twigs drape down, creating a fountain of greenery. Needs support
Maintenance: Mulch heavily and reduce water to less than weekly to reduce need to prune. Trim monthly in summer and fall to maintain size. Cut out long vines and ground runners. Deadhead spent flower spikes. Prune in late winter to control growth and tangling.
